

AGTA GEMFAIR™ TUCSON JAN. 30 – FEB. 4, 2018

TUCSON CONVENTION CENTER

Visit the “Modern Gem & Jewelry Collection” presented by Somewhere In The Rainbow

Due to popular demand, The ‘Modern Gem & Jewelry Collection’, presented by Somewhere In The Rainbow has extended their exhibit through July 2018, and added even more amazing gems for your viewing pleasure! The special collection can be seen at the University of Arizona Mineral Museum located inside Flandrau Science Center & Planetarium at the University of Arizona.

Visitors will experience gemstones from all over the world cut by renowned artisans, jewelry crafted by the finest creative minds and see minerals from rough to finished. Visitors will also learn about the history of gemology in a display of historical gemological tools.

This year’s special exhibit will feature a new lapidary event highlighting the precious gem, Ruby, and will showcase the lapidary skill of eleven master cutters from around the world. Also on display will be brand new installation of twenty award-winning designs by past winners of the AGTA Spectrum Awards™. For more information, please email Shelly Sergent at shelly@somewhereintherainbow.com.
